

# Republic Day speech

**Good morning to all my respected teachers, guardians, and dear friends.**

**As we all know that we all have gathered here on the very special occasion of our nation which is called Republic Day.**

**I want to deliver a speech on Republic Day in front of all of you. First of all, I would like to thank my class teacher because of whom I got a golden opportunity to say something about my beloved country on this great occasion of Republic Day on this platform of my school.**

**Today is the best day when we should pledge to preserve the real meaning, status, prestige of our country, and most importantly the culture of humanity.**

**The great heroes of our country have fulfilled their responsibility by giving us freedom and making a constitution. In a democracy, there is a system of the people, the people are the people.**

**Therefore, it becomes our fundamental duty to protect and respect the system and constitution of our country.**

**Addressing you today on this auspicious occasion, I end my speech by paying my respects and tributes to those great revolutionaries.**

**Many thanks to all of you...**

**Bharat Mata ki Jay... Jay Hind**
